Overdrive eReader App for Phones and Tablets

If you don't already have an Adobe ID, you should register for one before beginning this process. Visit adobe.com/account.html and choose "My Adobe ID" from the choices in the first column on the left side of the screen. It is easiest to do this from a PC, but possible to do it from you tablet or phone.

Depending on your device, download the "OverDrive Media Console" app from iTunes, Google Play, Amazon app store, or Nook app store

Once downloaded;

- Launch the app and click on the "Get Books +" button (top right).
- On the next screen click the "Add a Library +" button.
- You'll then be taken to the OverDrive website where you can search for your library.
- Select your library from the list.
- Clicking the link under the "Library Systems" heading you'll be taken to that library's website.

Sign in to your library account, find a book to check out.

When you click the download button you will be taken back to the OverDrive app.

As this will be the first time you've used OverDrive, you will be asked to sign in with your Adobe ID. Once done, you can proceed with the download and start reading your new book.
